One Day Symposium

Chinese Wisdom and Modern Management 中華智慧與現代管理

Noronha (2002) pointed out that national culture had to be instilled in the organizational culture for QM endeavor. A very good question of Hofstede (1980): 'Do American theories apply aboard?' Scrutiny for national culture on implementation of QM in organizations is thus crucial.

The HKIE CAD/SSC Symposium 2008/09 is a one-day symposium jointly organized by HKIE Control, Automation and Instrumentation (CA) Division and Safety Specialist Committee (SSC) of the HKIE, which aims to provide a golden opportunity for engineers and academic professions to share information and exchange ideas/experience on how Chinese wisdom links with modern management to achieve optimal outcome. This Symposium has been designed to satisfy the CPD requirements of the HKIE (1 day) and a Certificate of Attendance will be issued to the participants.
